### Opis produktu

#### FT 16 X 29mm Shock Kit

- Hard anodized, threaded 16mm aluminum shock bodies.
- Extra-large shock bladders to allow full volume compensation.
- Heavy-duty 4 mm stainless steel shafts
- Shock boots.
- Uses existing RC8 shaft and eyelet. Factory Team Gold shock shafts included.
- Comes with tunable pistons (pre-dimpled).
- Aluminum Caps for durability with drilled bleed hole that makes for easy bleeding and adjustable rebound.
- EZ Grip knurled shock collars.
- Improved shock boots design that won't tear and allows easy installation of the spring cup.
- Boots also have built in rubber bump-stops.

#### Benefits

- Increased stability in rough sections.
- Softer landings on big jumps.
- More predictable in the corners.
- Large oil volume reduces the effect of heating up during a main event.
- Uses lighter oils for same feel, light oils last longer and stay more consistent in varying temperatures.
