Opis produktu

The evolution of "Muscle cars" took an undeniable turn in the late 1970s towards the look of sleek sports cars. Cars like Pontiac's 1979 Firebird showcased a lower profile stance with aerodynamic body lines but still boasted impressive power under the hood. This BIG 1/16th scale plastic model kit from MPC showcases this notable shift in the design aesthetic by supplying tons of detail inside and out. Its features include clear T-tops, opening doors that expose the authentic interior, plus a detailed engine compartment and chassis. Firebird hood decals and a pictorial assembly booklet round out the release.

Features:

- Skill 3, paint and cement required
- Big 1/16 scale
- Firebird hood decals
- Authentic detail
- Opening doors and hood
