Opis produktu

P-51B Mustang (46 size - Warbird category)

The **P-51 Mustang** is one of the most famous US fighters of WW II. The P-51B Mustang was the first Merlin-engine version and appeared in 1943. The Merlin-powered Mustangs were exactly what the Allied bombers in Europe desperately needed, and they became famous for their long range and potent high-altitude escort capable.

These Tuskegee and Shangri-la inspired model of the P-51B/C model is a great flying and great looking model. The Red-Tail color scheme is captured here in this VQ ARF. You'll find the airplane easy to fly and equally easy to finish with its standard ARF assembly and construction. This model is factory built and finished including hardware and even a painted pilot. The model includes a fixed landing gear and optional retractable landing gear is available.

VQ recognizes today's R/C pilot wants to fly his aircraft with his favorite type power system. This model is designed to accept two stroke, four stroke, and with some modification can be flown with an electric power system. Power it any way you want.
